

HEY THERE 🙋

Ilkhom Shergoziyev

Senior Android & Flutter Developer · Android Team Lead at **Telecom Soft**, Tashkent

Senior Android developer — and senior in Flutter as well — building the apps behind JSC Uztelecom. I hold the Android team lead role on my team: I oversee our projects, guide how their architecture is built, and develop the new ones.

6+ years of experience in user-centric product development. Able to deliver high-quality products on time, with experience building and implementing enterprise-level systems.

PROJECTS 11

MyUztelecom

TEAM LEAD · OFFICIAL APP · ANDROID · GOOGLE PLAY · HUAWEI APPGALLERY

The self-service application of JSC “Uztelecom”. Customers watch their tariff plan, call history and extra charges, switch plans, enable SMS / internet / call packages, turn on roaming, pay for services and send card-to-card transfers — the operator in a pocket.

MY ROLE

I lead the team on this project.

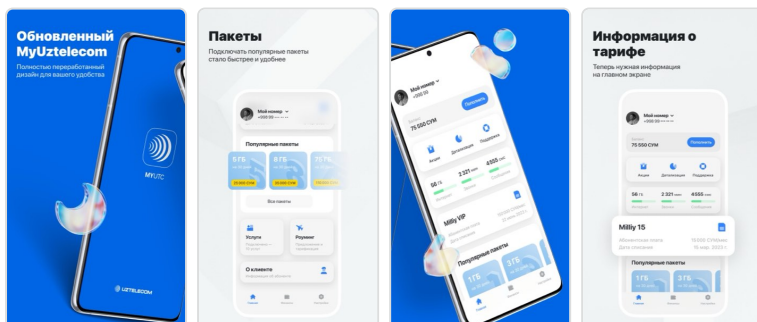

2.5M

MONTHLY ACTIVE USERS

\$800k+

SERVICES SOLD IN-APP / MONTH

Kotlin · MVVM · RxJava · Retrofit · OkHttp · Jackson · Glide · Navigation · Firebase · Koin · Google Maps · Glance widgets

[Google Play](#) →

OneID mobile

ANDROID + IOS · E-GOVERNMENT · GOOGLE PLAY · APP STORE

The mobile client of OneID — Uzbekistan’s single identification platform, which lets a citizen reach every electronic state service through one account. In the app people manage, update and verify their personal data, open digital copies of their documents, and find the services they need.

MY ROLE

I raised the project from zero and shipped it for both Android and iOS.

5,010 RATINGS ON GOOGLE PLAY

#1

TOP FREE BUSINESS ON GOOGLE PLAY UZ

[Google Play](#) → [App Store](#) →

Hamroh

TEAM LEAD · ANDROID · GOOGLE PLAY · AUTO & VEHICLES

A digital ecosystem for road safety, published by Telecom Soft. Drivers check traffic fines by plate number and passport details, look at the photo and video evidence, pay, and get a receipt — the paperwork disappears.

MY ROLE

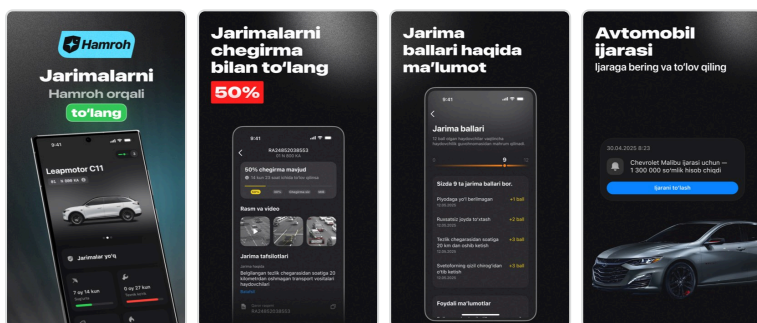

Team lead on the project: I raised its core structure, carried the security side of the work and delivered the MVP. Today I stay on the project as an advisor.

MyUzbekistan

ANDROID + IOS · FLUTTER · GOOGLE PLAY · TRAVEL & LOCAL

A travel companion for tourists crossing Uzbekistan, published by JSC “Uzbektelecom”. It carries detailed guides to the country’s landmarks, builds a route for the trip, finds the hotels, restaurants and transport nearby, and introduces the local culture and customs.

MY ROLE

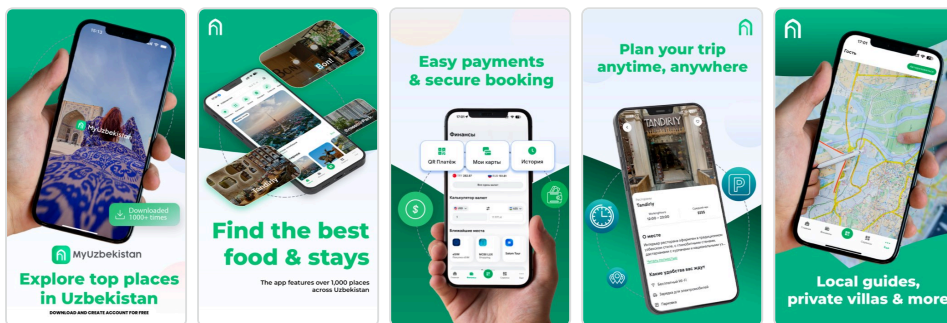

I raised both the Android and the iOS app from scratch in Flutter.

244 RATINGS ON GOOGLE PLAY

[Google Play](#) → [App Store](#) →

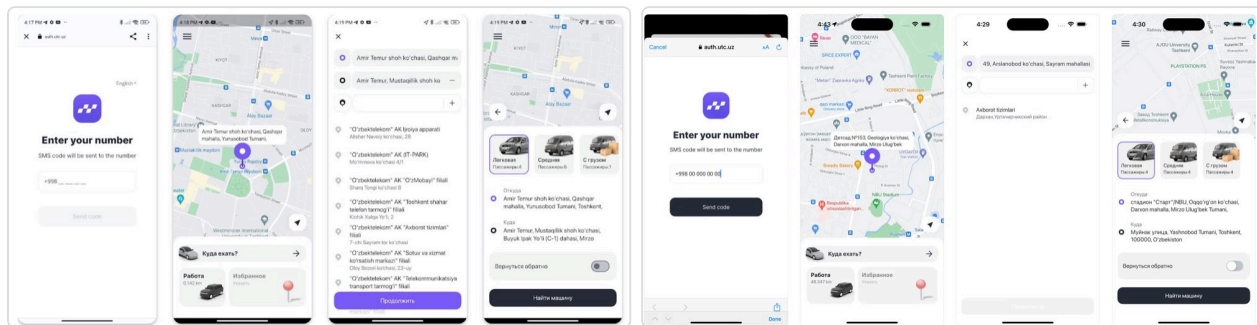

TelecomCar

OFFICIAL APP · ANDROID + IOS · GOOGLE PLAY · APP STORE

An internal ride service for Uztelecom employees. Staff order a car to a destination — or to several destinations in one trip — drivers accept and complete the ride, and the same app carries postal and shipping runs. One Flutter codebase, shipped to both stores.

Flutter · GetX state management · GraphQL · Dio · Hive · Firebase · Google Maps · Open Store · Connectivity

[App Store →](#)

Joymee

ONGOING · ANDROID · GOOGLE PLAY · REAL ESTATE

A property marketplace for Uzbekistan — apartments, land plots and ready hotel businesses in one place. Listings sit on a map, a smart search filters them by price, location, rooms, area or type, three view modes suit different ways of browsing, and buyers reach sellers through in-app chat.

MY ROLE

I work on the Android app today, shipping its current changes.

TSoft HRM

ADVISOR · ANDROID + IOS · GOOGLE PLAY · APP STORE

A complete HR management system from Telecom Soft that gathers every core HR function into one app: employees and managers handle schedules, track attendance, file requests and reach their records, while the company gains transparency over the work process and keeps the data protected.

MY ROLE

I advise the team on this project.

[Google Play](#) → [App Store](#) →

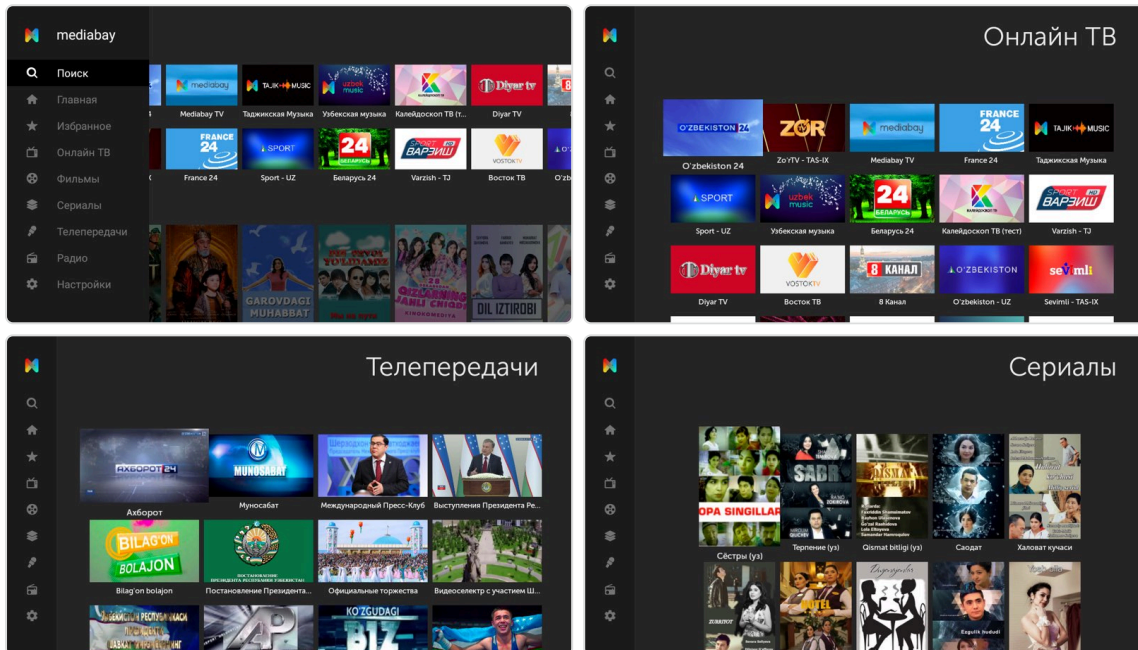

Mediabay

SMART TV · ANDROID TV · GOOGLE PLAY · ENTERTAINMENT

A big-screen entertainment client: live TV channels, shows, films and video on demand, plus online radio and music. Inside Uzbekistan it streams over the TAS-IX network, so the content stays fast and local.

MY ROLE

I built the Smart TV application.

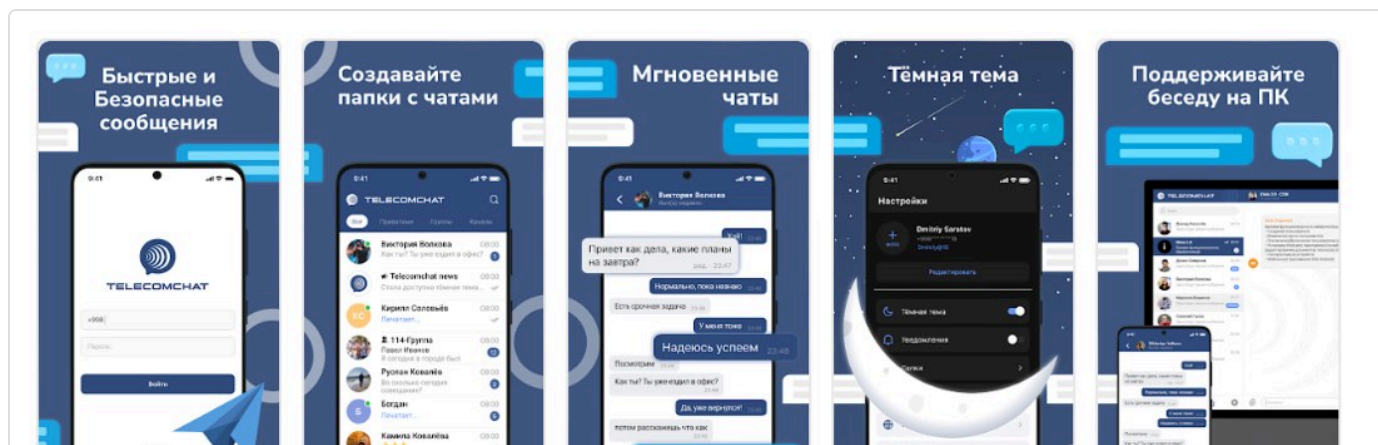

[Google Play](#) →

TelecomChat

STARTUP · FLUTTER · NOT PUBLISHED YET

A reliable, secure and fast messenger for business correspondence between employees, with voice messages and photo sharing. Built in Flutter; not on Google Play or the App Store yet.

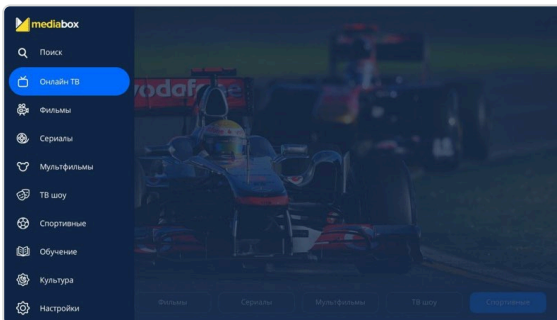

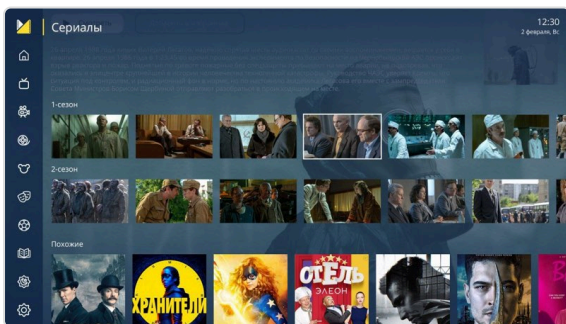

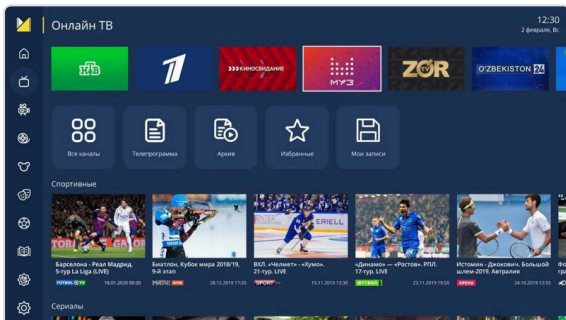

Mediabox

STARTUP · ANDROID · ANDROID TV

Uztelecom's most modern TV / OTT / VOD platform: a technology stack that rolls the service out across every platform under the company's brand in a short time, at minimal cost and with active technical support. The client is built for Android phones and Android TV.

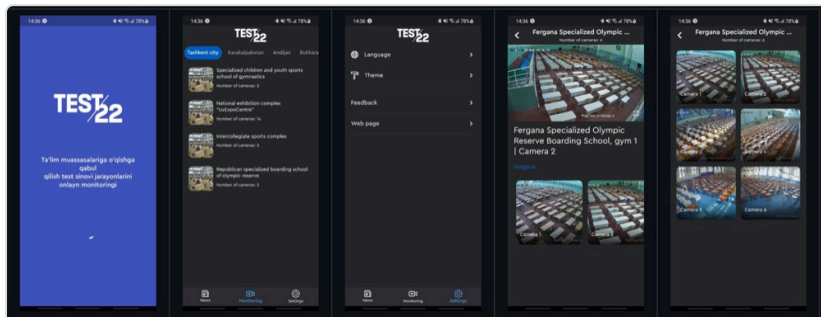

More

COLLECTION · ANDROID + IOS

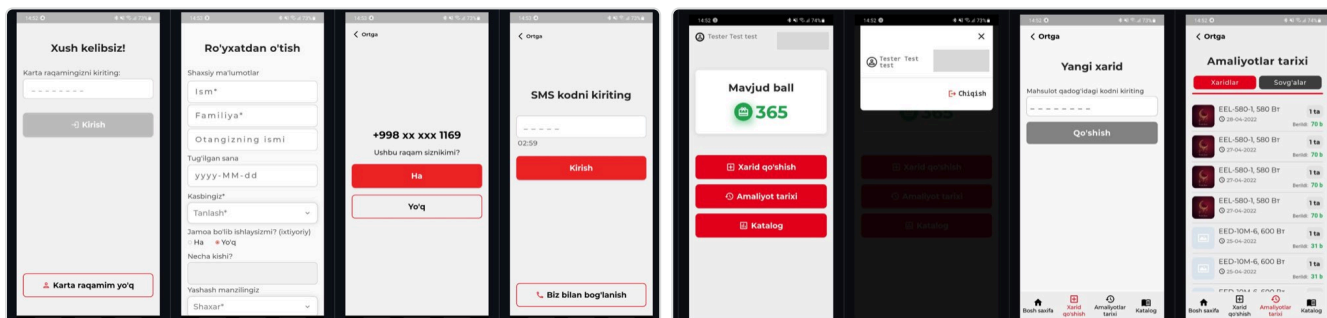

Test-2022

Android and iOS app for supervising test sessions online through video surveillance — every exam hall, camera by camera.

EpaUsta

A loyalty app on Google Play: a master signs up with a card number, adds a purchase by the code on the product package, collects points and follows the history in the catalogue.

EXPERIENCE

December 2023 –

● Present

Senior Android Developer, Team Lead / Telecom Soft

I develop new applications and build creative ones on top of newer frameworks.

August 2019 –

December 2023

Android Developer / JSC Uztelecom

Worked on the development of new applications and collaborated with several teams to add new features to existing ones.

TASHKENT, UZBEKISTAN
